

AUCTION OF THE 2.5GHz SPECTRUM BAND

The Spectrum Management Authority hereby invites interested parties to submit proposals to pre-qualify for participation in the auction of the 2.5GHz band for the provision of wireless broadband and 3G services in Jamaica.

The spectrum package being offered for the deployment of wireless broadband and 3G services is as follows:

- 75 MHz unpaired spectrum with a spectrum cap of 60MHz
- 2x50MHz paired spectrum with a spectrum cap of 2x25MHz

The licences in the band are to be issued via a single sealed bid auction process, subject to the pre-qualification of applicants.

A Request for Proposal document outlining the pre-qualification requirements for participation in the auction will be available on **December 8, 2008 at 9 a.m.** from the offices of the Spectrum Management Authority located at:

**2nd Floor, VMBS Building
53 Knutsford Boulevard
Kingston 5**

Further information about the auction process will be available on the following websites:

- www.sma.gov.jm – Spectrum Management Authority
- www.mmt.gov.jm – Ministry of Mining & Telecommunication

Interested parties may request clarification in writing on or before January 19, 2009 at 2 p.m. from the SMA by contacting spectrumbauction@sma.gov.jm.
